**3 Elevations Available**

4 beds | 2.5 baths | from 2,174 sqft This 2-story floor plan is a beauty! This home boasts over 2,100 sq. ft. of living space that includes a kitchen with a large center island that opens to the breakfast room and family room. Also, the first floor offers a flex room to use as you please. A trip to the second floor leaves nothing to be desired with a primary suite complete with a full bath and not one, but two walk-in closets. When you think it can't get any better, you will find three additional bedrooms, one with a walk-in closet of its own. The 2nd-floor laundry room and full bath complete this package. Want more? We have some fun options to choose from that you may not be able to resist!
